Internship

Network Security & Ethical Hacking Essentials

Jun 2026 – Jul 2026

- Explored network security fundamentals through Kali Linux, Wireshark, Nmap, and Burp Suite, building practical knowledge of ethical hacking concepts
- Performed vulnerability assessment and reconnaissance using Nmap, Wireshark, and OWASP Top 10 in guided lab environments
- Practiced packet analysis, network scanning, and basic penetration testing using Linux-based security tools
- Strengthened foundational cybersecurity skills by completing hands-on exercises in network security and ethical hacking

Projects

Digital Pateri – Smart Village Management Ecosystem

Apr 2026 - Jul 2026

- Architected a smart village management platform with **React, Node.js, Express.js, MongoDB, Tailwind CSS**, digitizing governance, citizen services, and administrative operations
- Orchestrated AI-powered citizen assistance through **Gemini API, REST APIs, Open-Meteo API**, delivering contextual village information and weather updates
- Established secure role-based workflows with **JWT Authentication, MongoDB Atlas**, streamlining document management and service delivery
- Modernized frontend architecture using **Vite, Zustand, reusable React components**, improving scalability, maintainability, and user experience

Low-Cost IoT Based Digital Classroom System for Rural Schools

Feb 2026 - May 2026

- Devised a low-cost digital classroom solution with **ESP32, Arduino IDE, Embedded C**, making smart learning accessible for rural schools
- Enabled real-time classroom monitoring through **IoT sensors, Wi-Fi communication**, supporting remote device management
- Integrated embedded hardware and automation logic to streamline classroom operations with minimal infrastructure
- Demonstrated a scalable prototype emphasizing affordability, reliability, and practical deployment for underserved educational environments

CyberGuard – Machine Learning-Based Intrusion Detection System

Jan 2026 - May 2026

- Crafted an intrusion detection system with **Python, Flask, Scapy, CICIDS2017, Scikit-learn**, enabling real-time network threat detection
- Leveraged **Wireshark, Pandas, Machine Learning** to inspect live packets and classify malicious traffic patterns
- Consolidated packet analysis, alert generation, and visualization into a unified **Flask-based** security dashboard
- Refined detection workflows through modular architecture and feature engineering, simplifying maintenance and future enhancements

Saanidhya – PG/Hostel Finder Platform

Oct 2025 - Dec 2025

- Conceived a location-based accommodation platform with **React, Vite, Node.js, Express.js, MongoDB Atlas, Tailwind CSS**, simplifying PG, hostel, and rental discovery for students.
- Implemented intelligent property discovery through **REST APIs, MongoDB Atlas, Google Maps API**, enabling location-aware search and advanced filtering.
- Facilitated secure interactions between tenants and property owners using **JWT Authentication, Role-Based Access Control**, streamlining listing management and inquiries.
- Elevated user experience with **Zustand, responsive UI, reusable React components**, delivering faster navigation and scalable frontend architecture

Certificate

- | | |
|--|----------|
| • Java Programming
Neo Colab | May 2026 |
|--|----------|

Co-Curricular Activities

- | | |
|---|----------|
| • Modern Technology & Industry-Relevant Careers Workshop
Skillspardha | May 2026 |
| • InnoStart 2025 – Innovation Event
LPU School of Computer Applications | Nov 2025 |
| • InnovXperience innovation initiatives
MSME | Oct 2025 |
| • AI Agents & The Future of Jobs
Founder’s Talk (Capabl / Infoity / DSO) | Sep 2025 |
| • Tech Blitz 2025 – 24 Hr Hackathon
Coding Ninjas LPU | Sep 2025 |
| • Honored for contributing to technical initiatives and organizational activity
LPU School of computer Applications | Aug 2025 |

Technical Skills

- **Languages:** C++, Java, Python, PHP, HTML, JavaScript, React.js, CSS, SQL
- **Technologies/Frameworks:** Git, GitHub, Linux, Cisco Packet Tracer, Xampp, Android Studio
- **Domain Skills:** Data Structures and Algorithms, Responsive Web Design, Scripting in Python, Database Management System, Object-Oriented Programming

Education

- | | |
|--|---|
| • Lovely Professional University
Master of Computer Applications - CGPA: 7.36 | 2025 - 2027
Phagwara, Punjab |
| • National Institute of Electronics and Information Technology (NIELIT)
O Level | 2023 - 2025
Varanasi, Uttar Pradesh |
| • Veer Bahadur Singh Purvanchal University
Bachelor of Computer Applications - Percentage: 70% | 2022 - 2025
Jaunpur, Uttar Pradesh |
| • Mahatma Gandhi Kashi Vidhyapith
Post Graduate Diploma in Computer Applications - Percentage: 56% | 2021 - 2022
Varanasi, Uttar Pradesh |
